

GOLDSTRIKE™ LED REFLECTOR REPLACEMENT

Parts Included:

- 1 LED Reflector Replacement 1 Screw and washer

Installation Instructions:

1. Remove the two circled screws with a 5MM allen then pull on the fender to remove it. (Fig. 1)
2. Remove the stock reflector by removing the circled nut. (Fig. 2)

3. Measure where the plug and play connector will come through the fender as illustrated in Figure 3. The hole should be 3/4" down from the top line and 5/8" over from the left edge. Drill a pilot hole first, then a 3/4" hole large enough to fit the connector through. A step drill bit works well in this application.

4. Put the connector through the hole and bolt the LED reflector replacement to the fender using the included screw and washer. This is a self tapping screw so it may require some pressure to start. The reflector replacement is polycarbonate so it will not break. (Fig. 4)

5. Hold the fender up to the bike and plug the LED reflector replacement into the stock connector located near the top of the opening. (Fig. 5)

6. Tuck the connectors into the hole near the top of the fender opening and re-install your rear fender. (Fig. 6)

7. Turn the ignition on and verify that your LED reflector replacement is illuminated as well as your license plate lights. (Fig. 7)

WARNING:

This indication alerts you to the fact that ignoring the contents described herein can result in potential serious injury or death if not followed.

CAUTION:

This indication alerts you to the fact that ignoring the contents described herein can or will result in material damage and/or personal injury.

ATTENTION:

This indication alerts you to the fact if you ignore this detail you will affect the performance or functionality of the product.

All **Ciro** products are designed for "easy assembly" and/or "plug and play". We recommend a competent mechanic install our products, using standard mechanical procedures to assure a safe and successful installation.

NOTE:

Ciro products are designed and manufactured under very strict quality control. **Ciro** warrants that products sold to the original purchaser shall be free from any defects in materials and workmanship for a period of 3 (three) years from the date of purchase, and a lifetime warranty against LED failure. **Ciro** will have no obligation if the customer cannot show proof of purchase. Warranty will not be granted unless the part is properly installed and maintained. **Ciro** will not be liable for any consequential and incidental damages, including labor, or non-**Ciro** products.
